

Once Again, Thank You For All Wonderful 5 Star Reviews!!!

We Want You To Pay Extra Attention To This Very Special Success Story, Which Warms Our Chiropractic Hearts... (the 1st review)

“I started seeing Dr. Nachmias after being hit by a car in 2013. I landed on my back in the street, injuring my neck and spine with herniated discs. I chose his office because they accept health insurance and have two convenient locations in Brooklyn and Manhattan. I didn't expect to heal so soon but Dr. Nachmias played a major role in helping me recuperate and return to an active life. I'm not quite sure what he does and how he is able to quickly assess specific areas of throbbing pain, but he is able to do that and treat it. Going to his office and seeing him is the only consistent health care I receive - always walking in feeling terrible and leaving feeling capable. His office staff are wonderful and develop a caring relationship with patients. His massage therapists are equally wonderful - developing an innate knowledge of how to help heal my pain. Dr. Nachmias has a quirky personality but all of his patients are dedicated to his care, including me. February 24, 2015, by Verified Patient.”

“He was very friendly, and personable. This is my first time ever going to a chiropractor, and I am planning to stick with him. He has a lot of energy which is great since he seems to be handling a lot of clients. I recommend going to him for sure. March 10, 2015, by Christina D.”

“Booked Dr. Nachmias on ZocDoc for a same day new patient appointment. Both Dr. Nachmias and his receptionist were very friendly. As soon as he brought me in for my consultation he gave me his full attention and really listened to everything I said and asked very applicable questions. I really liked how he used traditional chiropractor techniques as opposed to all the machines. I have been going to a chiropractor for years and have found my new chiropractor in Dr. Nachmias. March 2015, by Verified Patient.”

“Dr. Nachmias is magical. Instant relief, though I still have some healing to do. I will definitely be back. March 4, 2015, by Joni T.”

“Dr. Nachmias was excellent! I felt immediate relief. I'll definitely be back again. March, 2015, by Jenna H.”
